Question bank

Subject name: SOFTWARE ENGINEERING

Sem: 3rd

Subject code: 24BECSE305

MODULE 1: THE SOFTWARE PROCESS

SL NO	QUESTIONS	MARKS	COs	BL
1.	What is software? Explain the different types of software.	8	CO1	L1
2.	What are the applications of software domain?	8	CO1	L2
3.	State the nature of software with any two examples.	5	CO1	L1
4.	Define Software & Software Engineering. Why is it important? Explain the Software Process in Software Engineering.	10	CO1	L2
5.	Explain Generic software process model with a neat diagram.	8	CO1	L1
6.	With a neat diagram explain Prototype process model.	10	CO1	L2
7.	With a neat diagram explain waterfall model and spiral model.	10	CO1	L2
8.	Explain the Incremental Development Process model with a neat diagram. Also, mention the benefits of this model compared to the waterfall model.	10	CO1	L2
9.	Define process and explain generic process frame work for software engineering.	10	CO1	L1,L2
10.	Describe the five activities that a generic process framework for software engineering encompasses.	10	CO1	L2
11.	Explain new software Challenges and Software Myths.	06	CO1	L2
12.	Compare and contrast waterfall Model and Spiral Model	06	CO2	L2
13.	Briefly explain Concurrent models and Specialized Process Models.	10	CO3	L3
14.	Define software engineering and list any four characteristics of software.	10	CO3	L2
15.	What is Process assessment and Improvement? Explain in detail	10	CO1	L3

School of Engineering and Technology

Department of Computer Science and Engineering

16.	What is Specialized process model? Explain the different types of Specialized process model in detail.	10	CO3	L2
17.	Explain Unified process model in detail.	10	CO3	L2

Subject name: SOFTWARE ENGINEERING

Sem: 3rd

Subject code: 24BECSE305

MODULE 2: AGILE DEVELOPMENT

SL NO	QUESTIONS	MARKS	CO	BL
1.	What is agility? Explain agility with cast change using diagram.	05	CO3	L1
2.	Explain the principles of Agile software development.	05	CO3	L2
3.	Define Agile Process and explain agility principles.	05	CO3	L1
4.	Explain why the cost of change is lower in Agile compared to traditional models.	06	CO3	L2
5.	Explain politics of Agile development.	08	CO3	L2
6.	Summarize the role of human factors in agile development.	06	CO3	L2
7.	Discuss the politics of agile development with suitable examples.	06	CO3	L2
8.	Elucidate the concept of extreme programing (xp) with functional diagram.	10	CO3	L2
9.	With a neat diagram, explain the Scrum framework.	08	CO3	L2
10.	Explain adaptive software development with neat diagram.	10	CO3	L2
11.	Compare Feature-Driven Development (FDD) and Lean Software Development with suitable scenarios.	10	CO3	L2
12.	Compare and contrast Scrum and Kanban.	08	CO3	L3
13.	Explain Test Driven Development (TDD) process.	10	CO3	L2
14.	Illustrate the phases of Adaptive Software Development (ASD).	10	CO3	L2
15.	Explain Industrial XP in detail.	08	CO4	L3
16.	Explain Dynamic Systems Development Method (DSDM).	08	CO4	L3
17.	Explain Feature–Driven development(FDD) With a neat diagram.	10	CO4	L3
